The Trip to Rocher-De-Nayes

Rochers de Naye is located well above the high pastures. Up high, you can see the railway line if you look up at the mountain from the lakeside at Montreux.

The cog wheel railway will take you there in less than an hour and you will be able to see Lake Geneva from the rocky terrace on the summit.

The train departs every hour from Montreux Station. It climbs through the meadows and fields to Glion and Caux where proud, elegant hotels dating from the Belle Époque period, sit above the lake. This is not the end of the line, as it then continues towards the Jaman Pass and onwards to the rocky summit.

CHAPLIN MUSEUM

in Corsier / Vevey (take Bus #212 from Vevey Station)

A new immersive museum dedicated to the life and work of filmmaker Charlie Chaplin has opened at his former Swiss home near Lake Geneva after more than 15 years of planning.

Chaplin's World is set on the huge grounds of the Manoir de Ban built in 1840 above Vevey in canton Vaud, where Chaplin spent the last 25 years of his life. He died there at the age of 88 in 1977.

The Studio and The Manoir © Chaplin's World™ The Studio

With spectacular views of the lake and Alps, the refurbished former family home where he lived with his wife Oona and their eight children, is just half of the museum focusing on the comic legend's private life.

Visitors can walk throughout the huge mansion entering his former living room, dining room and library, where Chaplin used to write his autobiography and prepare scripts. Upstairs there is access to his bedroom and other rooms.
