Swiss Transport Museum

The past, present and future of transport and mobility on land, sea and in the air; the principles of telecommunication are seen here. Discover more than 3,000 displays covering approximately 20,000m² which testify to a moving history and heralds future challenges in transport and communication.

Swiss Chocolate Adventure

The Swiss Museum of Transport has a new attraction. A multimedia theme world, the Swiss Chocolate Adventure, developed in conjunction with the Lindt Chocolate Competence Foundation, opened in June 2014. This new experience shows you interesting facts about the origin, production and transport of chocolate. It illustrates the entire value creation and transport chains from the cultivation of the cocoa bean and the transport to Switzerland up to the manufacture and sale of the finished chocolate product.
